

Environmental Policy of Pannon Tools Kft.

Pannon Tools Kft. operates its environmental management system in a manner that meets the expectations of interested parties, complies with national and international requirements, as well as with all applicable environmental laws and regulations in force, and ensures the implementation of this policy and the achievement of the environmental objectives derived from it.

During its operations, the environmentally conscious selection of applied technologies, equipment, and materials, the environmentally aware behavior and training of employees, as well as the rational and efficient use of resources, materials, and energy, together with the proper management of harmful emissions, emission factors, and waste, ensure minimal environmental impact, the prevention of environmental pollution and health hazards, and the fastest and most effective response in case of environmental emergencies.

To this end, Pannon Tools Kft. continuously monitors changes in applicable requirements, identifies and analyzes environmental hazards and evaluates the effectiveness of its related activities.

The owners, management, and all employees of Pannon Tools Kft. are committed to the continual improvement of environmental performance and the prevention of pollution, thereby ensuring compliance with applicable legal and societal expectations.

In order to achieve our objectives:

- Pannon Tools Kft. applies modern technologies that are designed to minimize environmental impact.
- We require our suppliers and subcontractors to act in accordance with the principles defined in the Environmental Policy of the company.
- We improve the flow of environmental information between the company and interested parties, including suppliers, subcontractors, and customers.
- We strive to reduce the quantity of waste generated during production.
- We ensure the highest possible level of recycling of generated waste.
- We aim to reduce the specific energy consumption and improve the efficiency of energy use.
- We reduce the use of hazardous substances.
- We minimize the likelihood of unexpected events with environmental impact.
- We further strengthen our employees' awareness of the importance of environmental protection.
- We monitor changes in our environmental performance.
- Pannon Tools Kft. strives to ensure the implementation of its Environmental Policy through the operation of an environmental management system in accordance with **ISO 14001**.
